

"Rise to the Top this Summer"

Dear Parent/Guardian,

Dogwood Elementary will be implementing a Summer Math initiative to keep your child engaged with math skills during the summer. In this letter, you will find all the information you need to track your child's success. Please visit <https://dogwoodes.bcps.org/> and click the "parents" tab in order to find the summer math calendars to begin tracking your child's progress. If you don't have access to a printer, please call or come to the school and we will make copies for you!

Math Summer Incentive:

- On the website there is a summer calendar with various skills to practice with your child. You will initial on the day your child has completed that "activity." This will be turned in the first week of school as well. These skills are what your child learned this past year. You can always find the calendar online for the grade your child is entering for "enrichment" practice.

Can't forget about reading....

- Visit the pizza hut website to learn about reading programs for free pizza
- Go to education.com for activities (some are free and some you can pay for)
- Barnes and Nobles:
<https://specialists.barnesandnoble.com/summerreading?summer-reading-lists-for-kids>
- Encourage your child to read as much as possible over the summer, while asking them questions about what he/she is reading.

Thank you for your continued support,
Your Dogwood Family
